ARRESTS MADE IN THE EAST

Suspects Taken Into Custody in New York and Pittsburgh—Conspiracy to Murder Denver Priest Hatched by Anti-Clerical Society.

Denver, Feb. 29.—Chief of Police Michael Delaney said that a letter written by Giuseppe Aloisio to his son, which was found in the cell occupied by Aloisio while in jail at Colorado Springs, contained proof that men in six cities of the United States were connected with him in the killing of Father Leo.

Almost at the moment that he made this statement came news that six arrests had been made in Eastern cities of men suspected of being accomplices of the murder.

J. Vami was arrested in New York charged with being the chief of the society; while in Pittsburgh Orestos Sodi, Tomasso Calabrese, Orestos Malavui and Mallo Holmei were locked up for being implicated as members of the society. The police of New York and Pittsburgh say they have evidence which connects these men with the killing of Father Leo.

Arrests have been made in four cities, but because the police of these cities are shadowing other men no information is given out as to who the arrested men are.

Chief Delaney said that he was not sure whether Aloisio was merely a tool of the anti-clerical society, to which he said all these men belonged, or whether he was a ringleader.

The letter addressed to Aloisio's son in Sicily was found concealed in the blankets of the cot on which Aloisio slept while in jail at Colorado Springs. Its contents, translated, it is asserted, indicate that Father Leo was the victim of a plot hatched outside of Denver and that Aloisio came here to commit murder, which was to be the signal for others. Until all the arrests have been made which the police contemplate Chief Delaney said he would not give out all the particulars in the case.

"The interests of the police department," he said, "require that the letter be not made public at this time. All that I can say is that the men in six cities have now become involved in this affair. I will further say that I consider Aloisio one of the smartest criminals in the world today."

That insanity will be the plea offered in defense of Aloisio was the positive statement of Baron G. Tosti, Italian consul, who in company with ex-consul Corti and Attorney Widdicombs visited the prisoner in the jail.

Promoter Sentenced to Prison.

St. Paul, Feb. 29.—Samuel A. Phillips, convicted of embezzling funds of the Hancock company while acting as its representative in the Northwest for the sale of the capital stock of the Chicago-New York Electric Air Line railway, was sentenced by Judge Bunn in the district court to seven years at hard labor in state prison. The case will be taken to the supreme court by writ of error, and a stay of thirty days after the February term, which ended Friday, was granted by Judge Bunn.

Government Owns Railroads.

Mexico City, Mex., Feb. 29.—The papers in the merger of the Mexican Central and National lines have been signed. This culminated the long drawn out negotiations and causes the greater part of the railway mileage of the country to pass into the control of the federal government.

NOW UP TO JOHNSON.

Negro Pugilist to Decide Whether He Will Fight Burns.

London, Feb. 29.—Mr. Kelly, representative of the syndicate which is endeavoring to arrange a fight between Tommy Burns, holder of the heavyweight pugilistic championship, and Jack Johnson, the American negro fighter, received the following cable dispatch from the United States:

"Johnson is puzzled at Burns' terms. Will fight in England if Burns insists. He wants \$1,000 for expenses. Send full particulars of the offer of the British syndicate."

To this Mr. Kelly replied: "Will give Johnson \$5,000 win or lose. This amount includes expenses. Jeffries to referee and the ring to be sixteen feet, Burns insists. I insist on Johnson posting \$2,000 or this match is off, as I have an option on a certain building until the morning of Feb. 29."

In an interview concerning the proposed contest Mr. Kelly said:

"The fight will be a twenty-round one in order to comply with the English law, and if Johnson posts a forfeit articles will be sent to the United States for him to sign. It might be added that the terms which puzzle Johnson are not those of Burns, but were made by the syndicate. The only conditions upon which Burns insists were the size of the ring and James J. Jeffries to be referee."

"Jeffries was chosen by him because he believed the American public will be better satisfied with Jeffries than if an Englishman judged the fight."

PARDO CALLS ON EVANS.

President of Peru Visits the American Admiral.

Lima, Feb. 29.—President Pardo visited Admiral Evans on board the battleship Connecticut. As he passed down the pier to take a launch to the warship a large number of American sailors and marines formed in two lines and greeted him with enthusiastic cheering.

President Pardo was received on board the Connecticut by Captain Osterhaus. Later he went to Admiral Evans' quarters and spoke to the commander-in-chief.

Admiral Evans proposed the health of President Pardo, the Peruvian congress, the chiefs of the Peruvian navy and the entire Peruvian people.

President Pardo then proposed the health of President Roosevelt, the American nation, and the admirals and the officers of the fleet. He expressed the hope also that Admiral Evans would recover promptly from his indisposition.

Joint Committee of Coal Operators and Miners Adjourns.

Indianapolis, Feb. 29.—The joint committee of the coal operators and miners of Illinois, Indiana, Ohio and Western Pennsylvania, comprising the Central competitive field, adjourned sine die without reaching an agreement upon the proposition to call a joint convention to re-establish the interstate agreement and fix a wage scale to go into effect April 1, when the present scale expires. The final disagreement is the climax to months of argument and strategic sparring for position, which characterized joint meetings held in October, December and January. Unless concessions are made by one or both sides the union bituminous coal miners of the country will cease work March 31.

Senate Passes Indian Bill.

Washington, Feb. 29.—The consideration of the Indian appropriation bill consumed nearly the entire time in the senate. The Indian bill was passed.

BRADLEY IS ELECTED

Republican Is Chosen Senator From Kentucky.

WILDLY EXCITING SCENES

Four Democrats Voted for Successful Candidate and Their Colleagues Vainly Tried to Induce Them to Change Their Votes.

Frankfort, Ky., Feb. 29.—Amid scenes of wildest excitement on the floor of the house of representatives, Former Governor William O'Connell Bradley, Republican candidate, was elected to succeed James B. McCreary in the United States senate for a term of six years beginning March 4, 1909. He received 64 votes, barely enough to win, and was enabled to gain victory through the assistance of four Democrats who have throughout the session voted against J. C. W. Beckham. Their sudden rally to Bradley took the Beckham men completely by surprise.

The completion of the first roll call showed Bradley 64, Beckham 60, Blackburn 1, James 1. Before the speaker could announce the result the Democrats obtained a recapitulation, and attempted to break the quorum by leaving the hall, but came back accompanied by Beckham, who authorized the withdrawal of his name and released the Democrats from the primary nomination pledge to him in hope that some other Democrat would be named who would defeat Bradley.

The four bolting Democrats were surrounded by lifelong party friends and urged to withdraw their support from Bradley and elect James McCreary or any Democrat they might name, but they remained obdurate, declaring that the proposition came too late. The Democratic leaders promised a caucus to select a candidate to which the name of Beckham would not be presented, but the recalcitrants refused all offers, and the result could not be changed. The ballot was finally completed after the Democrats finished changing their votes was as follows:

Bradley 64, Beckham 15, James 15, McCreary 10, Mayo 5, Allen 2, Smith 2, Peak 2, Newman, Hunt, Elliston, Stanley, Blackburn, Cantrill, Ellis, Cammack, Sullivan and McElroy 1 each.

There was great disorder in the chamber during recapitulation, the Republicans demanding the speaker to announce the result and the Democrats seeking to delay, hoping to induce one of the Democrats to leave Bradley.

Terrible Explosion Occurs in a Mexican Mine.

Monterey, Mex., Feb. 29.—A special dispatch from Musquiz to the News says: Details of the explosion in the La Rosita mine, near San Juan de Sabinas, mention of which was made in previous dispatches, have been received and indicate that the explosion was more disastrous than at first believed. Seventy-six men were killed by the explosion, which occurred a few minutes before 6 o'clock in the morning, just as preparations were being made to change the shifts. The disaster took place in what was known as Shaft No. 3, and in which most of the laborers were Japanese. Fire damp is believed to have been responsible.

Attell Defeats Kelly.

San Francisco, Feb. 29.—Abe Attell, the American featherweight champion, practically knocked out Ed Kelly, the "Buffalo Newsboy," in the seventh round of a scheduled twenty-round go. The Californian floored his man four times in this round with wicked left clouts to the jaw and the police stepped into the ring and stopped a very uneven contest.

We are receiving our new suits

And will soon have them ready for display

If you want to select your spring suit from the nattiest styles that are shown this season you will have to see our line. They are being received and we will announce an opening of them in a few days.

If you have ever had the idea that you must purchase of a "suit man" you will find that that idea is a much mistaken one. We will show a much better and a better assorted line than any "suit man" carries for the reason that our line represents the best of several lines while the "representative" can show you but the ideas of one manufacturer.

Watch our announcements and come to our opening. But, come.

BOMB FOR A PRESIDENT.

Abortive Attempt to Kill Chief Executive of Argentina.

Buenos Ayres, Feb. 29.—Dr. J. Figueroa Alcorta, president of the republic, was the object of an abortive attempt at assassination at the hands of a native of Argentina. He hurled a crude bomb at the president as the latter alighted from his carriage in front of his residence. The missile did not explode.

The miscreant, who is believed to be insane, was arrested, and three other persons who were acting in a suspicious manner also were taken into custody by the police.

Dr. Alcorta was not at all perturbed. He considers the action that of an insane man.

The official statement regarding the occurrence was given out at the residence of President Alcorta:

"His excellency was alighting from a carriage when an individual, who afterwards was identified as an Argentine of mixed blood named Solano Regis, dropped at the president's feet a bomb, which, happily, did not explode.

"Dr. Alcorta, with great coolness, promptly kicked the infernal machine away from him, while his aide de camp, Captain Anabia, seized the criminal and prevented his escape.

"The police immediately procured a pail of water, into which they placed the bomb, which emitted a sulphurous odor.

"President Alcorta meantime had turned to expostulate with his would-be assassin, but owing to the possibility of the bomb still exploding he was gently forced by his aide de camp up on the porch of his residence.

"The police afterwards arrested three men prowling in the neighborhood as suspicious characters.

"The bomb was made from a common paint can and is believed to contain about ten kilos of explosives.

"His excellency showed no sign of perturbation during the incident, merely attributing the act to an unhinged mind."

Regis refuses to give any information concerning his action, though he denies that he was the emissary of any one.

The outrage is not believed to have any political significance.

CLOSE CALL FOR THE SHAH

Bomb Wrecks Automobile of the Persian Ruler.

Teheran, Persia, Feb. 29.—Mohammed Ali Mirsa, shah of Persia, narrowly escaped death at the hands of an assassin. A bomb was thrown from the roof of a house at the shah's

automobile, in which it was supposed he was a passenger, the explosion killing three of the vehicle's escorts and wounding the chauffeur and a score of bystanders. Fortunately, the shah had taken the precaution to send his automobile in front of the vehicle which he occupied and to this foresight probably owes his escape from death. Two bombs were thrown, but the first exploded in the air and did no damage. The second, however, struck the ground a few feet from the automobile and tore the vehicle to pieces. The assassins believed the shah was in the motor car, which was a closed one, but which it developed carried no passengers.

When the explosion occurred the shah's carriage was some distance in the rear of the automobile, and the ruler immediately left his carriage

and took refuge in a nearby store, where he quietly remained until a detachment of troops could be brought up. As soon as the soldiers arrived on the scene the shah left the house where he had taken refuge and, surrounded by a strong bodyguard, returned to the palace.

No arrests have been made, although the buildings in the vicinity of the explosion were carefully searched for the assassins.

The cavalry escorting the shah, immediately after the explosion, began firing wildly in all directions. Twelve persons are known to have been injured by bullets from their weapons.

The street in the vicinity of the explosion was filled with debris and smeared with the blood of the men and horses.

Further trouble is anticipated.

Mrs. H. W. Congdon and little one came down from Staples today to surprise Mr. Congdon, who is here assisting his father. They will remain here several days.

Sam Girard, of Crow Wing, has received a letter from his brother, Adolphus Girard, who is superintendent of a paper mill at Grand Marais, Canada, stating that five feet of snow fell there last week.

Ole Peterson, the farmer who runs a meat wagon around this city, had the misfortune to have a wheel taken off his wagon this forenoon. In swinging around a corner on North Fourth street the wheel struck and was crushed completely.

Minneapolis papers state that Rev. W. B. Riley, who conducted the evangelistic meetings here a year ago will tomorrow preach a sermon celebrating his eleventh anniversary as pastor of the First Baptist church in Minneapolis.

Gussie Small returned to this city last night and will visit here a couple of days before going to St. Paul for another examination in the railway mail service. He expects to commence work on the Fargo-St. Vincent run in about ten days.

According to a clipping sent to this city by Mrs. R. W. Waddington, formerly of the city, but now of North Yakima, Wash., the Minnesotans of that section have organized a Minnesota club and held a very pleasant reunion recently, over 300 former residents of the North Star state being present.

TO SAVE TERRORISTS.

Appeal Based on Constitutional Grounds Is Made.

St. Petersburg, Feb. 29.—That the sentence of death imposed against Calvino, the Italian newspaper correspondent, and six other terrorists who were convicted of complicity in the recent plot upon the lives of Grand Duke Nicholas Nicholasievitch and M. Chichegiovitch, the minister of justice, will not be carried into effect without an effort being made to save them was made manifest when an appeal based on constitutional grounds and involving the competency of the duma was lodged with General Hazenkamp. The petition set forth that the verdict is invalid as the case did not belong to the jurisdiction of a military court since the state of extraordinary security legally ceased to exist in St. Petersburg in January, and that the original statute establishing various classes of military law, promulgated in 1881, after the assassination of Emperor Alexander II. and renewed periodically since, expired in August, 1907. The appeal also contends that the Imperial order by which the statute was extended for a year partakes of the nature of a temporary law, which requires the consent of the duma two years after its convocation. The case of Calvino and the other condemned terrorists is the first to raise this issue, as the two years expired in January.

Signor Melagari, Italian ambassador to Russia, visited Grand Duke Nicholas Nicholasievitch and requested clemency for Calvino.

MOTHER ENDS HER LIFE.

Daughter Falls in Convulsions From Shock of Tragedy.

Munich, Mich., Feb. 29.—Despondent after hearing that a closed Stockbridge, Mich., bank in which much of her small fortune was deposited might pay only 10 per cent to depositors, Mrs. Mary Meyer, a farmer's widow near here, committed suicide by taking carbolic acid and her seventeen-year-old daughter died fourteen hours later in convulsions brought on by the shock of discovering her mother in a lying condition.

NO CHARGE AGAINST HIM

Paul Roy Calls at Public Prosecutor's Office in Paris.

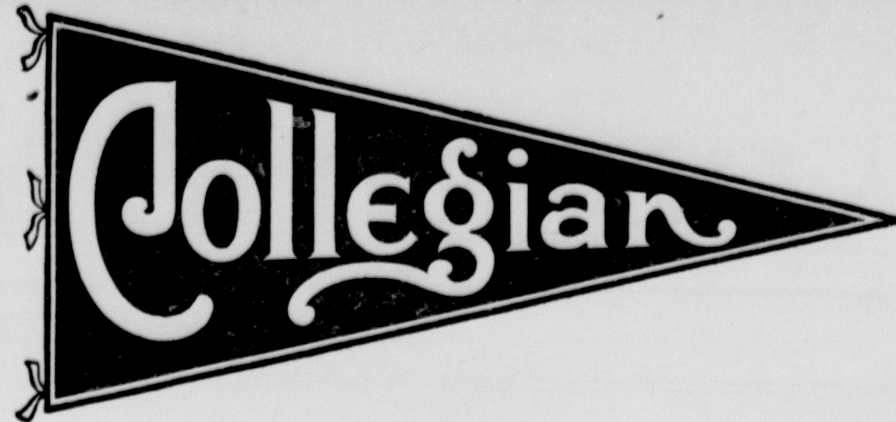

Paris, Feb. 29.—Paul Roy, who is charged by his American wife, Glacia Calla, with the murder of her brother in New Hampshire in January last, called with his counsel, M. Aubin, at the public prosecutor's office and placed himself at the disposition of the judicial authorities.

The prosecutor, however, informed Roy that no charge had been made against him, whereupon he left.

WEEKLY REVIEW OF TRADE

Distribution of Staple Goods by Jobbers Tends to Increase.

New York, Feb. 29.—Bradstreet's review of trade says distribution of staple goods by jobbers tends to increase as the spring buying season advances and the large number of buyers' excursions draw merchants to the market, but there is a consensus of opinion that buying is in a high degree conservative and that staple goods and what may be classed as necessities comprise the heavier part of the business done. Retail trade is very quiet; except where price reductions on winter weight goods tempt buyers, and final distributive demand unquestionably feels the reduced purchasing power of the public at large, due to short time or reduction of earnings in industry. Wholesale trade is quiet as a whole and cotton fabrics, notably print cloths and flannelettes, have been sharply cut; stocks of the former are reported to be piling up despite reduced time worked. Three-fourths of the normal production is reported working. Reports from other industries are irregular. The improvement in finished lines of steel noted last week has gone further and a slightly larger capacity is now at work, but crude output seems to be no larger; some merchant furnaces are reported shutting down because of accumulations of stocks, and prices of some pig iron are easier. A favorable development in finished steel is the placing of orders by some roads for rails in addition to those noted weeks ago. The shoe industry does not gain much at the East, but Western reports are of fuller capacity working. Woolen goods trade reports are not very cheerful, though the clothing trade is reported as being better.

The order for the appointment of the commission to frame a new charter for the city of Brainerd has been signed by Judges W. S. McClenahan and Marshal A. Spooner and will be filed Monday, March 2nd. Under the provisions of the law they must all be freeholders of the city of Brainerd and must for the past five years have been legal voters in the city.

The names as given above, as in the order appointing them, are arranged alphabetically, the order in which they appear having no bearing on the organization, which is provided for in the order. The clerk of the court is directed to notify them of the time and place of their first meeting.

The appointees are given 30 days under the law in which to qualify. It is the intention, it is said, if possible, to have the charter prepared and reported in ample time for its consideration prior to, and its submission to the voters at, the general election to be held Tuesday, November 3rd.

MASQUERADE SKATE

Big Crowd at Casino Roller Rink Friday Night at Masquerade--Bislar Furnished Fine Music

The masquerade at the Casino roller skating rink Friday evening was well attended. There were 150 pairs of skates out, all the rink had, and there was a demand for 25 pairs more. The gallery was packed with spectators and the floor of the rink encroached upon by the onlookers, besides the lobby being packed. Bislar's orchestra furnished the music and added an extra cornet so as to bring the music out better over the sound of the skates. The orchestra gave the best of satisfaction to the skaters and spectators.

NO NIGHT TRAINS

Request for Night Passenger Trains on Minnesota & International Cannot be Granted

According to statements made by a "Prominent Official" of the Minnesota & International railway, in St. Paul a few days ago, there will be no night train put on this spring. When the attention of General Manager Gemmell was called to the item he laughed and said, "I did not disguise myself sufficiently, did I," and went on to explain that there was not sufficient passenger traffic at present to warrant any additional train service as the day train could carry all the traffic. Should there be sufficient increase of travel to justify the putting on of night trains the railroad company would be only too glad to put them on. It is hoped and believed, however, that the rapid development of that section of the country will ultimately furnish a traffic which will justify a through night service between the twin cities and the Canadian border.

MUSIC AND DRAMA

Staples Made Good

The production of "Arizona" Thursday evening by the Staples Dramatic club was a pleasant surprise to the audience as it was much above the average run of amateur theatricals. KILLS THREE CHILDREN.

Ohio Woman Then Ends Her Own Life.

Baltimore, O., Feb. 29.—Mrs. J. C. Spires, wife of a farmer, killed three of her children, fatally wounded a fourth and then committed suicide. One of the children was drowned in a well and the others were shot and their throats cut. Mrs. Spires took carbolic acid, shot herself and cut her throat. The surviving child, which may die, is a boy five years old. The dead children are Catherine, three years old; Luella, six years old, and Jesse, one year old.

The woman is supposed to have been seized with a fit of insanity, but so far as known she had shown no symptoms of mental unsoundness.

Joseph Spires, husband of the woman, was away from home when the tragedy occurred and when he arrived home he was horrified to find the baby, Jesse, dead in its cradle on the lower floor, with its throat cut and a bullet hole in its head. Going up stairs, he found the body of his wife lying in a pool of blood on the floor, his daughter, Luella, lying on the bed dead, and the boy unconscious. The throats of both the boy and girl had been cut and bullet wounds were in their bodies.

Mrs. Spires' body presented a terrible sight. Her lips and face were burned with carbolic acid, there was a gaping wound in her throat, and a bullet wound in her head.

Mr. Spires at once alarmed his neighbors, and search was made for the girl Catherine. Her body was later found in a well.

BELIEVES IN BOOSTING

Dr. J. L. Camp, of Brainerd, Hopes for Organized Publicity in Several Counties

Dr. J. L. Camp, one of the progressive citizens of Brainerd, was in Little Falls Wednesday, and took considerable interest in the plans outlined by the speakers at the publicity meeting Tuesday evening. He has strong and well-grounded faith in the natural resources of this section of Minnesota, and believes that a judicious campaign of advertising would greatly aid its development.

The doctor owns considerable land along the Mississippi above Brainerd, some of which he farms, and has demonstrated that it is productive. He is not anxious to sell his property, but realizes that it would be of great advantage to the cities and counties of this part of Minnesota to adopt an extensive campaign of advertising. That would bring thousands of settlers to occupy lands that are entirely adapted to agriculture and stock raising. There is a diversity of soil in meadow and upland and timber districts that is most inviting to the farmer who can intelligently carry on diversified agriculture. He believes that the tardy settlement is due to the lack of organized and persistent effort to advertise the district.

Dr. Camp strongly approved the suggestion that Crow Wing, Aitkin, Morrison and other counties unite in an elaborate publicity campaign to carry on the work on a scale that no one county could afford to attempt. He said he was quite sure that Brainerd and Crow Wing county would gladly do their share in arranging and prosecuting a comprehensive publicity campaign.—Little Falls Transcript.

Cooley, engineer of the state highway commission, on "Progress of Road Building in Minnesota." Arthur E. Committees were appointed by the president to investigate on specifications and to look after needed legislation.

FIRE IN A HOSPITAL.

Endangers the Lives of Seventy-five Patients.

New Haven, Conn., Feb. 29.—The lives of seventy-five patients, some of them in a serious state, were endangered when a fire broke out on the top floor of the four-story patients' ward at Grace hospital in Chapel street. While the firemen poured water into the building, the nurses, doctors and orderlies, assisted by citizens, removed the patients to places of safety in ambulances, carriages, automobiles, truck wagons and other conveyances. The loss, it is believed, will not exceed \$30,000.

Miss R. I. Albaugh, superintendent of Grace hospital, said that of the patients twenty-five were in a very serious condition. Six of them were typhoid fever sufferers, twelve had been recently operated on, and there were three or four bad fracture cases. The patients were bundled up as well as possible in blankets, but it is feared the exposure may have a bad effect.

It is not known how the fire started.

DULUTH PLANTS MAKE MONEY

Municipal Ownership Proven a Success in the Zenith City

BETTER SERVICE IS ALSO GIVEN

Herald States that Upwards of a Million and a Half Has Been Saved to the People

By Request of Alderman Zakariasen THE DISPATCH republishes the following editorial from the Duluth Herald on the showing made by the municipal water and light departments of that city:

"Elsewhere in The Herald tonight appears the annual report of the water and light department of the city of Duluth, which should be read by every citizen. There is matter in it that will stir the pride of the people of Duluth, and that will cause them to congratulate themselves on the judgment they showed when they took over the gas and water plants from private ownership to be operated for the common good.

"It is a trite saying that a city is a corporation in which every citizen is a stockholder, but in this case it is particularly applicable. Duluth is in business for itself, and it is making a success of it. Its business is capitalized at about \$3,250,000, and every citizen is getting dividends—in improved service and in cheaper rates.

"It is a good showing for Duluth, and it is a good showing for municipal ownership. Duluth sets the pace for the nation in the successful administration of municipality owned public utilities. It went about it in the right way by taking the municipal plants out of politics and putting them in an unpaid, non-partisan board of citizens. The water and light commission went about its work in the right way by employing an expert to take charge of the plants. Manager L. N. Case was hired because he was fit for the place, and he has been retained because he made good.

"Since the city acquired these plants, nine years ago, the pipe lines have been more than doubled; tainted and poisonous water, has been replaced by the purest water on earth; the quality of the gas has been improved; and what appeals even more forcibly to the consumer, selling rates have been cut in two. The plants have paid all expenses of operation and maintenance, interest on bonds and from their earnings \$200,000 has been invested in new construction.

"Each year for half a decade the

plants have shown a profit over cost of operation; \$20,000 in 1904; \$26,500 in 1905; \$47,500 in 1906; \$86,700 in 1907 and the profit will not be less than \$130,000 this year.

"Besides this, the citizens of Duluth have been saved upwards of a million and a half dollars in the cost of the gas and the water service since the city took hold of these plants.

"Opponents of municipal ownership are fond of spreading items of alleged news regarding the failure of municipal ownership. They never find any comfort in contemplating the operation of the Duluth plants. Duluth never figures in the bulletins that are sent to the newspapers of the county containing matter calculated to discourage public ownership of public utilities. The reason is that the experience of this city in municipal ownership furnishes a complete answer to all the arguments that are made against the policy.

"Duluth did not put her municipal plants into politics, but placed them in charge of a commission composed of business men appointed because of their public spirit and business experience. This commission, by employing experts because of their fitness for their places, and by conducting the municipal plants as business enterprises upon business lines, has made a thorough success of its work that is gratifying to the people of Duluth and encouraging to believers in municipal ownership everywhere."

Dr. J. L. Camp, one of the progressive citizens of Brainerd, was in Little Falls Wednesday, and took considerable interest in the plans outlined by the speakers at the publicity meeting Tuesday evening. He has strong and well-grounded faith in the natural resources of this section of Minnesota, and believes that a judicious campaign of advertising would greatly aid its development.

The doctor owns considerable land along the Mississippi above Brainerd, some of which he farms, and has demonstrated that it is productive. He is not anxious to sell his property, but realizes that it would be of great advantage to the cities and counties of this part of Minnesota to adopt an extensive campaign of advertising. That would bring thousands of settlers to occupy lands that are entirely adapted to agriculture and stock raising. There is a diversity of soil in meadow and upland and timber districts that is most inviting to the farmer who can intelligently carry on diversified agriculture. He believes that the tardy settlement is due to the lack of organized and persistent effort to advertise the district.

Dr. Camp strongly approved the suggestion that Crow Wing, Aitkin, Morrison and other counties unite in an elaborate publicity campaign to carry on the work on a scale that no one county could afford to attempt. "Elsewhere in [The Herald tonight appears the annual report of the water and light department of the city of Duluth, which should be read by every citizen. There is matter in it that will stir the pride of the people of Duluth, and that will cause them to congratulate themselves on the judgment they showed when they took over the gas and water plants from private ownership to be operated for the common good.

"It is a trite saying that a city is a corporation in which every citizen is a stockholder, but in this case it is particularly applicable. Duluth is in business for itself, and it is making a success of it. Its business is capitalized at about \$3,250,000, and every citizen is getting dividends—in improved service and in cheaper rates.

"It is a good showing for Duluth, and it is a good showing for municipal ownership. Duluth sets the pace for the nation in the successful administration of municipality owned public utilities. It went about it in the right way by taking the municipal plants out of politics and putting them in an unpaid, non-partisan board of citizens. The water and light commission went about its work in the right way by employing an expert to take charge of the plants. Manager L. N. Case was hired because he was fit for the place, and he has been retained because he made good.

"Since the city acquired these plants, nine years ago, the pipe lines have been more than doubled; tainted and poisonous water, has been replaced by the purest water on earth; the quality of the gas has been improved; and what appeals even more forcibly to the consumer, selling rates have been cut in two. The plants have paid all expenses of operation and maintenance, interest on bonds and from their earnings \$200,000 has been invested in new construction.

"Each year for half a decade the

plants have shown a profit over cost of operation; \$20,000 in 1904; \$26,500 in 1905; \$47,500 in 1906; \$86,700 in 1907 and the profit will not be less than \$130,000 this year.

"Besides this, the citizens of Duluth have been saved upwards of a million and a half dollars in the cost of the gas and the water service since the city took hold of these plants.

"Opponents of municipal ownership are fond of spreading items of alleged news regarding the failure of municipal ownership. They never find any comfort in contemplating the operation of the Duluth plants. Duluth never figures in the bulletins that are sent to the newspapers of the county containing matter calculated to discourage public ownership of public utilities. The reason is that the experience of this city in municipal ownership furnishes a complete answer to all the arguments that are made against the policy.

"Duluth did not put her municipal plants into politics, but placed them in charge of a commission composed of business men appointed because of their public spirit and business experience. This commission, by employing experts because of their fitness for their places, and by conducting the municipal plants as business enterprises upon business lines, has made a thorough success of its work that is gratifying to the people of Duluth and encouraging to believers in municipal ownership everywhere."

lowed each national bank to take out national credit notes to the extent of 100 per cent of its capital stock with the approval of the comptroller of the treasury and an unlimited additional amount with the approval of the board of managers of the reserve district to which the bank belongs. This provision was revised so that the total amount of credit notes issuable to any bank shall not exceed 200 per cent of its capital stock.

The bill originally provided that of the deposit guaranty fund to be created by a tax of 2 per cent on the credit notes issued, 80 per cent should be invested in United States 2 per cent bonds and 20 per cent should be held in reserve. This is a gold fund. The bill as revised stipulates the investment of the entire fund in United States two and one-half per cent bonds and fixes their flat purchase price of 104, which was the average price for the month of February last.

The revised bill, in order to carry out the bond currency retirement clause, provides that after the guaranty fund has reached the sum of \$25,000,000 the secretary of the treasury shall issue gold certificates in amounts corresponding with the annual 2 per cent payments on the total outstanding credit note issued, these gold certificates to take the place of an equal amount of outstanding greenbacks. As the estimated annual tax on credit notes would be \$14,000,000, about fourteen years would be required for the total retirement of the country's present bond-secured currency after the guaranty fund reached the amount of \$25,000,000.

One of the most interesting provisions of the bill as revised in committee requires the government to collect its claims and pay its current expenses through the banks by checks.

CURRENCY MEASURE

Fowler Bill to Be Favorably
Reported to House.

COMMITTEE RECOMMENDS IT

But Members Are Not Committed to
Its Support on the Floor of the
House—Anxious to Have Measure
Debated Without Delay.

Washington, Feb. 29.—By a vote of 11 to 5, three members being present and not voting, the house committee on banking and currency authorized its chairman, Representative Fowler of New Jersey, to report to the house the Fowler currency bill, with the recommendation that it pass.

Mr. Weeks of Massachusetts in voting for the favorable report of the bill reserved the right to oppose on the floor the clause providing for a federal guaranty of national bank deposits.

Though the decision to report the bill favorably was reached as the result of weeks of hearings and exhaustive discussion of its various provisions in executive session, the decision does not commit the banking and currency committee to its support on the floor of the house.

Ten of the eleven members who voted for the favorable report reserved the individual right to oppose any section of it, and to offer and urge any amendment when the bill is called up. A majority of the committee felt the necessity of getting the bill before the house without further delay so that its provisions as revised in committee may become a subject of open debate, both in the house of representatives and in the press of the country.

The committee amended the bill in six of its salient features. The clause permitting national banks to do a trust savings bank business was amended by striking out the savings bank section.

Liability Clause Revised.

The clause making all of the national banks within each of the proposed reserve districts specifically liable for 10 per cent of the check and note liabilities of failed national banks within that district was revised to read 25 per cent.

The bill as originally framed, allowed

KILLS HIS SWEETHEART.

Minnesota Man Then Ends His Life
With a Bullet.

Bemidji, Minn., Feb. 29.—Because she refused to become his wife and slapped his face when he persisted in pressing his suit, Laura Fleishman was murdered in her room at Tenstrike by J. O. Jahneke, who at once turned the rifle on himself with fatal result. Jahneke's affection for the girl began three years ago, when she was a pupil in a district school of which he was the teacher. Lately he had urged her father to support him in his plea, but the latter refused, saying the girl, who was only sixteen years old, was too young to marry.

A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of curing. It is the most potent invigorating tonic and strengthening nerve known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy or known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equalled. Little sugar-coated granules—easy to take as candy.

lowed each national bank to take out
national credit notes to the extent of
100 per cent of its capital stock with
the approval of the comptroller of the
treasury and an unlimited additional
amount with the approval of the board
of managers of the reserve district to
which the bank belongs. This pro-
vision was revised so that the total
amount of credit notes issuable to any
bank shall not exceed 200 per cent of
its capital stock.

The bill originally provided that of
the deposit guaranty fund to be creat-
ed by a tax of 2 per cent on the credit
notes issued, 80 per cent should be in-
vested in United States 2 per cent
bonds and 20 per cent should be held
in reserve. This is a gold fund. The
bill as revised stipulates the invest-
ment of the entire fund in United
States two and sixes their flat pur-
chase price of 104, which was the aver-
age price for the month of February
last.

The revised bill, in order to carry
out the bond currency retirement
clause, provides that after the guaran-
ty fund has reached the sum of \$25,
000,000 the secretary of the treasury
shall issue gold certificates in amounts
corresponding with the annual 2 per
cent payments on the total outstand-
ing credit note issued, these gold cer-
tificates to take the place of an equal
amount of outstanding greenbacks. As
the estimated annual tax on credit
notes would be \$14,000,000, about four-
teen years would be required for the
total retirement of the country's pres-
ent bond-secured currency after the
guaranty fund reached the amount of
\$25,000,000.

One of the most interesting pro-
visions of the bill as revised in com-
mittee requires the government to col-
lect its claims and pay its current
expenses through the banks by checks.

doctor. Men cannot understand women's sufferings.
What we women know from experience, we know
better than any doctor. I know that my home treat-
ment is a safe and sure cure for Leucorrhoea or
Whitish discharges, Ulceration, Displacement of
the Womb, Profuse, Scanty or Painful
Periods, Uterine or Ovarian Tumors or Growths,
also pains in the head, back and bowels, bearing
down feelings, nervousness, creeping feeling up
the spine, melancholy, desire to cry, hot flashes,
weariness, kidney and bladder troubles where
caused by weaknesses peculiar to our sex.

I want to send you a complete ten day's treat-
ment entirely free to prove to you that you can cure
yourself at home, easily, quickly and surely. Re-
member, that it will cost you nothing to give the
week, or less than two cents a day. It will not inter-
fere with your work or occupation. Just send
me your name and address, tell me how you suffer if you wish, and I will send you the treatment
for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, my
book—"WOMAN'S OWN MEDICAL ADVISER," with explanatory illustrations showing why
women suffer, and how they can easily cure themselves at home. You must have an operation," you can
decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all,
old or young. To Mothers of Daughters, I will explain a simple home treatment which speedsily
and effectually cures Leucorrhoea, Green Sickness and Painful or Irregular Menstruation in Young
Ladies. Plumpness and health always result from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell
any sufferer that this Home Treatment really cures all women's diseases, and makes women well,
strong, plump and robust. Just send me your address, and the free ten day's treatment is yours,
also the book. Write today, as you may not see this offer again. Address

ONE WEAK SPOT

Most Brainerd People Have a Weak
Spot and Too Often It's
the Back

Everyone has a weak spot.
Too often it's a bad back.
Twinges follow every sudden twist.
Dull aching keeps up, day and night.
Tells you the kidneys need help—
For backache is really kidney ache.
A kidney cure is what you need.
Doan's Kidney Pills cure sick kid-
neys,
Cure backache and all urinary ills.
Brainerd people recommend the
remedy.

Oscar Oppgaard, employed at the N.
P. shops, and living at 610 Tenth street
So., Brainerd, Minn., says: "I speak
from experience when I say that Doan's
Kidney Pills are most effective in re-
moving backache and strengthening the
kidneys. Being in need of such a
remedy I went to H. P. Dunn's drug
store, procured a box of Doan's Kid-
ney Pills and the prompt results I re-
ceived through their use I am thorowly
convinced that they are all they are
claimed to be."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
New York, sole agents for the United
States.
Remember the name—Doans—and
take no other.

Isn't it the limit to come
home cold and tired, dead
anxious for a drink and find
nothing in the house but
water or insipid tea and
coffee? The wise thing for
every man in this town to
do is to call on us for a bot-
tle of the liquor he likes best.
We keep all the favorite
brands of whisky and we al-
ways sell cheaply.

CURRENCY MEASURE

Fowler Bill to Be Favorably
Reported to House.

COMMITTEE RECOMMENDS IT

But Members Are Not Committed to
Its Support on the Floor of the
House—Anxious to Have Measure
Debated Without Delay.

Washington, Feb. 29.—By a vote of
11 to 5, three members being present
and not voting, the house committee
on banking and currency authorized
its chairman, Representative Fowler
of New Jersey, to report to the house
the Fowler currency bill, with the
recommendation that it pass.

Mr. Weeks of Massachusetts in vot-
ing for the favorable report of the
bill reserved the right to oppose on
the floor the clause providing for a
federal guaranty of national bank de-
posits.

Though the decision to report the
bill favorably was reached as the re-
sult of weeks of hearings and ex-
haustive discussion of its various pro-
visions in executive session, the de-
cision does not commit the banking
and currency committee to its sup-
port on the floor of the house.

Ten of the eleven members who
voted for the favorable report re-
served the individual right to oppose
any section of it, and to offer and
urge any amendment when the bill is
called up. A majority of the commit-
tee felt the necessity of getting the
bill before the house without further
delay so that its provisions as revised
in committee may become a subject
of open debate, both in the house of
representatives and in the press of
the country.

The committee amended the bill in
six of its salient features. The clause
permitting national banks to do a
trust savings bank business was
amended by striking out the savings
bank section.

Liability Clause Revised.
The clause making all of the national
banks within each of the proposed
reserve districts specifically liable for
10 per cent of the check and note li-
abilities of failed national banks with-
in that district was revised to read 25
per cent.

The bill as originally framed, al-

KILLS HIS SWEETHEART.

Minnesota Man Then Ends His Life
With a Bullet.

Bemidji, Minn., Feb. 29.—Because
she refused to become his wife and
shopped his face when he persisted in
pressing his suit, Laura Fleishman
was murdered in her room at Ten-
strike by J. O. Jahnke, who at once
turned the rifle on himself with fatal
result. Jahnke's affection for the girl
began three years ago, when she was
a pupil in a district school of which
he was the teacher. Lately he had
urged her father to support him in his
plea, but the latter refused, saying the
girl, who was only sixteen years old,
was too young to marry.

A Woman's Back

has many aches and pains caused by
weakness and falling, or other displace-
ment, of the pelvic organs. Other symp-
toms of female weakness are frequent
headache, dizziness, imaginary specks or
dark spots floating before the eyes, gnaw-
ing sensation in stomach, dragging or
bearing down in lower abdominal or pel-
vic region, disagreeable drains from pelvic
organs, faint spells with general weakness.

If any considerable number of the above
symptoms are present there is no remedy
that will give quicker relief or a more per-
manent cure than Dr. Pierce's Favorite
Prescription. It has a record of over forty
years of cures. It is the most potent
invigorating tonic and strengthening per-
fume known to medical science. It is made
of the glyceric extracts of native medi-
cinal roots found in our forests and con-
tains not a drop of alcohol or harmful, or
habit-forming drugs. Its ingredients are
all printed on the bottle-wrapper and at-
tested under oath as correct.

Every ingredient entering into "Fa-
vorite Prescription" has the written en-
dorsement of the most eminent medical
writers of all the several schools of prac-
tice—more valuable than any amount of
non-professional testimonials—though the
latter are not lacking, having been con-
tributed voluntarily by grateful patients
in numbers to exceed the endorsements
given to any other medicine extant for
the cure of woman's ills.

You cannot afford to accept any medicine
of unknown composition as a substitute
for this well proven remedy of known
composition, even though the dealer may
make a little more profit thereby. Your
interest in regaining health is paramount
to any selfish interest of his and it is an
insult to your intelligence for him to try
to palm off upon you a substitute. You
know what you want and it is his busi-
ness to supply the article called for.

Dr. Pierce's Pleasant Pellets are the
original "Little Liver Pills" first put up
by old Dr. Pierce over forty years ago,
much imitated but never equalled. Little
sugar-coated granules—easy to take as
candy.
